|------------------|---|-----------|
| <b>Chapter 1</b> | <b>Introduction</b>                                       | <b>1</b>  |
| 1.1              | Redshift Surveys . . . . .                                | 1         |
| 1.1.1            | Las Campanas Redshift Survey(LCRS) . . . . .              | 3         |
| 1.1.2            | Two Degree Field Galaxy Redshift Survey(2dFGRS) . . . . . | 3         |
| 1.1.3            | Sloan Digital Sky Survey . . . . .                        | 4         |
| 1.2              | Filaments and the Cosmic Web . . . . .                    | 4         |
| 1.3              | Theoretical Background . . . . .                          | 10        |
| 1.3.1            | The $\Lambda$ CDM model . . . . .                         | 10        |
| 1.3.2            | Structure Formation . . . . .                             | 10        |
| 1.3.3            | The Zeldovich Approximation . . . . .                     | 11        |
| 1.3.4            | Bias . . . . .  | 14        |
| 1.4              | Motivation of the work . . . . .                          | 15        |
| 1.5              | Outline of the Thesis . . . . .                           | 16        |
| <b>Chapter 2</b> | <b>Methods of analysis</b>                                | <b>17</b> |
| 2.1              | Shapfinders in Three Dimension (3D) . . . . .             | 17        |
| 2.2              | Analysis in Two Dimension (2D) . . . . .                  | 18        |
| 2.2.1            | Largest Cluster Statistics and 2D Shapefinders . . . . .  | 19        |
| 2.2.2            | Shuffle . . . . .   | 25        |
| 2.3              | Systematic effects . . . . .                              | 28        |
| 2.3.1            | The effect of survey area . . . . .                       | 28        |
| 2.3.2            | The effect of thickness . . . . .                         | 29        |

|                  |  |           |
|------------------|--|-----------|
| 2.3.3            | The effect of number density . . . . .   | 33        |
| <b>Chapter 3</b> | <b>Testing the <math>\Lambda</math>CDM model with filaments in the LCRS</b>          | <b>35</b> |
| 3.1              | Introduction . . . . .   | 35        |
| 3.2              | The LCRS data and the N-body simulations . . . . .                                   | 39        |
| 3.2.1            | LCRS strips . . . . .  | 39        |
| 3.2.2            | N-body simulations . . . . .   | 39        |
| 3.2.3            | Implementing the bias . . . . .  | 40        |
| 3.2.4            | Introducing a bump . . . . .   | 40        |
| 3.3              | Results . . . . .  | 42        |
| 3.4              | Discussion and Conclusions . . . . .   | 43        |
| <b>Chapter 4</b> | <b>Filamentarity and connectivity in the SDSS DR1</b>                                | <b>49</b> |
| 4.1              | Introduction . . . . .   | 49        |
| 4.2              | SDSS DR1 and the data . . . . .  | 51        |
| 4.3              | Results . . . . .  | 57        |
| 4.3.1            | Comparison with random samples . . . . .   | 57        |
| 4.3.2            | Luminosity Dependence . . . . .  | 60        |
| 4.3.3            | Statistical Significance of the Filaments . . . . .                                  | 61        |
| 4.3.4            | The bias from the filaments . . . . .  | 64        |
| 4.4              | Discussion and Conclusion . . . . .  | 67        |
| <b>Chapter 5</b> | <b>Luminosity, Colour and Morphology dependence of filamentarity in the SDSS DR4</b> | <b>73</b> |
| 5.1              | Introduction . . . . .   | 73        |
| 5.2              | SDSS DR4 and the data . . . . .  | 78        |
| 5.3              | Results . . . . .  | 87        |
| 5.4              | Comparison with a semi analytic model of galaxy formation . . . . .                  | 94        |
| 5.5              | Discussion and Conclusion . . . . .  | 99        |
| <b>Chapter 6</b> | <b>The luminosity-bias relation from filamentarity in the SDSS DR4107</b>            |           |
| 6.1              | Introduction . . . . .   | 107       |

|                              |            |
|------------------------------|------------|
| 6.2 Data . . . . .           | 109        |
| 6.3 Results . . . . .        | 111        |
| 6.4 Conclusions . . . . .    | 115        |
| <b>Chapter 7 Conclusions</b> | <b>117</b> |
| <b>Bibliography</b>          | <b>119</b> |
| <b>List of publications</b>  | <b>131</b> |
