Abstract	xi
Chapter 1 INTRODUCTION	1
1.1 GEOLOGICAL BACKGROUND	4
1.1.1 Geotectonic subdivisions of the Himalayan Metamorphic Front	4
1.1.1a Sub-Himalayan Sequence (SHS)	6
1.1.1b Lesser Himalayan Sequence (LHS)	6
1.1.1c Greater Himalayan Sequence (GHS)	7
1.1.1d Tethyan Himalayan Sequence (THS)	8
1.1.2 Definition and the status of the MCT in the Himalayan Metamorphic Front	8
1.1.3 Chronology of the Metamorphic Events in the Himalayan Orogen	10
1.2 ARUNACHAL HIMALAYA: GEOLOGICAL SETTING	17
1.2.1 Sub-Himalaya (SH)	19
1.2.2 Lesser Himalayan Sequence (LHS)	19
1.2.2a Gondwana rocks and Bomdila Group	19
1.2.2b Bomdila gneiss and Bomdila Group	19
1.2.2c Dirang Formation	20
1.2.3 Greater Himalayan Sequence (LHS)	21
1.2.3a Se La Group	21
1.3 OBJECTIVES	23
Chapter 2 LITHOLOGY AND STRUCTURE	25
2.1 LITHOLOGY	27

2.1.1	LESSER HIMALAYAN SEQUENCE (LHS)	27
2.1.1a	Gondwana rocks and Bomdila Group	27
2.1.1b	Bomdila gneiss and Bomdila Group	27
2.1.1c	Dirang Formation	32
2.1.2	GREATER HIMALAYAN SEQUENCE (GHS)	33
2.1.2a	Se La Group	33
2.2	BULK ROCK COMPOSITION	37
2.3	STRUCTURE	41
2.3.1	LESSER HIMALAYAN SEQUENCE (LHS)	42
2.3.1a	Bomdila gneiss and Bomdila Group	42
2.3.1b	Dirang Formation	43
2.3.2	GREATER HIMALAYAN SEQUENCE (GHS)	45
2.3.2a	Se La Group	45
2.4	LOCATION OF THE MCT IN THE WAH	46
Chapter 3	PETROGRAPHY AND MINERAL CHEMISTRY	49
3.1	PETROGRAPHY	51
3.1.1	Garnet-zone	51
3.1.2	Kyanite-zone	54
3.1.3	Kyanite-migmatite zone	55
3.1.4	Kyanite-Sillimanite-migmatite zone	57
3.1.5	K-feldspar-Kyanite-Sillimanite-migmatite zone	57
3.2	MINERAL CHEMISTRY	61
3.2.1	Garnet-zone	61
3.2.2	Kyanite-zone	70
3.2.3	Kyanite-migmatite zone	73
3.2.4	Kyanite-Sillimanite-migmatite zone	76
3.2.5	K-feldspar-Kyanite-Sillimanite-migmatite zone	76
3.3	SUMMARY	81
Chapter 4	MINERAL REACTION HISTORY	95
4.1	Garnet-zone	97
4.2	Kyanite-zone	98
4.3	Kyanite-migmatite zone	99
4.4	Kyanite-Sillimanite-migmatite zone	101
4.5	K-feldspar-Kyanite-Sillimanite-migmatite zone	101

Chapter 5	P-T CONDITIONS OF METAMORPHISM AND METAMORPHIC P-T PATHS	103
5.1	GEO THERMOBAROMETRY and P-T PSEUDOSECTION approaches	105
5.2	RESULTS OF GEO THERMOBAROMETRY	112
5.2.1	Conventional geothermobarometry and Thermocalc average P-T	112
5.2.2	Isopleth thermobarometry	116
5.3	METAMORPHIC P-T PATH	120
5.3.1	Lesser Himalayan Sequence	120
5.3.1.1	Garnet-zone	120
5.3.1.2	Kyanite-zone	125
5.3.2	Greater Himalayan Sequence	129
5.3.2.1	Kyanite- and Kyanite-Sillimanite-migmatite zones	129
5.3.2.2	K-feldspar-Kyanite-Sillimanite-migmatite zone	133
Chapter 6	DISCUSSION	137
6.1	INVERTED METAMORPHIC ZONATION OF THE WAH	139
6.2	METAMORPHIC FIELD GRADIENT	141
6.3	METAMORPHIC P-T PATH	144
6.4	MODELS FOR INVERTED METAMORPHISM	150
