ACKNOWLEDGMENTS

My PhD work has been a long journey, full of exciting events and at times difficult and exhausting. This thesis would not be completed without acknowledging the people who were with me throughout this journey and have contributed in several ways towards the shaping of this thesis.

I consider myself very fortunate to have had Prof. Rajib Mall as my guide. Few words are too short to express my deep sense of gratitude to him. I am deeply indebted to Prof. Mall, for his invaluable guidance, motivation, help, and constant encouragement throughout my work. I really appreciate and cherish his confidence in allowing me to conduct independent research. Prof. Mall deserves special thanks for painstakingly reading my reports and helping me with his insightful comments on all the stages of my work.

I am also grateful to all the faculty members of the CSE Department for their invaluable advice. I wish to thank the Software Laboratory staff and all the secretarial staff of the CSE Department for their sympathetic cooperation.

I thank all my colleagues at the Department of CSE for their encouragement and help in several forms. I take this opportunity to thank all my well wishers for their inspiration and constant encouragement. I also wish to thank all my friends (whom I am not able to acknowledge individually due to lack of space) for making my stay at IIT Kharagpur a pleasant and memorable one.

I wish to appreciate and thank my daughters, Medha and Misha, for allowing me to stay away in Kharagpur for this work. Words fail to express my appreciation to my wife Chandni who has accompanied me in every ups and downs in these years. Without her constant support and encouragement, I could hardly have completed this work. Her unending patience, and understanding have made it all possible, and meaningful. I find myself fortunate to have her as a wife, friend, and companion.

“Home is the first school” is a popular adage in Gujarati, my native language. As I am a staunch believer in foundations, I am forever indebted to my family for providing an excellent first school.
