ACKNOWLEDGEMENTS

I owe a special debt of gratitude to Dr. S. N. Ghosh under whose guidance this work was carried out. Without his valuable supervision it would have been really difficult for me to complete this work.

I am also grateful to the teachers and the Head of the Department of Humanities and Social Sciences for offering me all kinds of help and facilities for carrying out this study.

I express my deep sense of gratitude to Prof. S. B. Sinha, Department of Electrical Engineering and to Mr. S. Biswas, Department of Mathematics, for their help in computer programming at the stage of data-processing.

I also acknowledge the gracious co-operation of the authorities and the teachers of the colleges and the universities concerned for permitting me to administer the tests on their students. I must extend my thanks to those students who volunteered to take the tests under the present programme.

Lastly, I thank my fellow Research Scholars in the Department of Humanities and Social Sciences for their encouragement and occasional suggestions.
