| | Abstract | viii |
| | Contents | ix |
| Chapter 1 | Introduction | 1-4 |
| Chapter 2 | Review of Literature | 5-23 |
| | 2.1 Crop growth, yield and nitrogen use efficiency | 5 |
| | 2.2 Crop quality | 9 |
| | 2.3 Residual effect in cropping system | 12 |
| | 2.4 Soil chemical properties | 14 |
| | 2.5 Soil biological properties | 22 |
| Chapter 3 | Materials and Methods | 25-39 |
| Chapter 4 | Results | 41-92 |
| | 4.1 Soil carbon and nitrogen status | 41 |
| | 4.2 Direct effect of nutrients management on rice crop | 49 |
| | 4.3 Effect of nutrients management on performance of rice-chickpea cropping system | 68 |
| | 4.4 Soil chemical and biological properties under different nutrients management in rice crop | 77 |
| | 4.5 Changes in soil chemical properties under different nutrients management after two years of rice-chickpea cropping system | 84 |
| Chapter 5 | Discussion | 93-112 |
| | 5.1 Effect of organic and inorganic nutrients management on seasonal soil C and N status | 94 |
| | 5.2 Direct and residual effect of organic and inorganic nutrients management on growth, yield and nitrogen use efficiency of the rice-chickpea cropping system | 99 |
| | 5.3 Effect of organic and inorganic nutrients management on rice grain quality | 105 |
| | 5.4 Effect of organic and inorganic nutrients management on soil chemical and biological properties in the cropping system | 107 |
| Chapter 6 | Summary and Conclusions | 113-122 |
| References | | 123-142 |
