SYNOPSIS	i
CHAPTER I. INTRODUCTION	
1.1. Flows due to Rotating Disks in Ordinary Viscous Fluids	1
1.2. Rotating Disk Flow Problems in Magnetohydrodynamics	7
1.3. Flow problems due to Rotating Disks in non-Newtonian Fluids	11
1.4. Outline of the Thesis	22
CHAPTER II. FLOW BETWEEN TWO UNSTEADY ^{IL} ROTATING DISKS	
2.1. Introduction	24
2.2. Equations of Motion	26
2.3. Method of Solution	30
2.4. Discussion of the Results	33
2.5. Tables	37
CHAPTER III. HYDROMAGNETIC FLOW DUE TO THE TORSIONAL OSCILLATIONS OF A POROUS INFINITE PLATE	
3.1. Introduction	39
3.2. Equations of Motion	42
3.3. Solution of Equations	44
3.4. Conclusions	48
3.5. Table.	53

(Contd.)

	<u>Page</u>
CHAPTER IV. HYDROMAGNETIC FORCED FLOW AGAINST A POROUS ROTATING DISK	
4.1. Introduction	54
4.2. Equations of Motion	56
4.3. Method of Solution	59
4.4. Conclusions	67
4.5. Tables	70
CHAPTER V. FORCED FLOW OF AN ELASTICO-VISCOUS LIQUID AGAINST A ROTATING DISK	
5.1. Introduction	75
5.2. Equations of Motion	77
5.3. Method of Solution	81
5.4. Conclusions	85
5.5. Tables	87
CHAPTER VI. FLOW OF AN ELASTICO-VISCOUS LIQUID BETWEEN TWO INFINITE SLOWLY ROTATING DISKS	
6.1. Introduction	88
6.2. Equations of Motion	89
6.3. Method of Solution	93
6.4. Discussion of the Results	97
6.5. Tables	100
BIBLIOGRAPHY	102
