NOTATIONS AND ABBREVIATIONS

		Stand for	
S_3	...		a projective space of 3 dimension
w_o	...		with respect to
iff	...		if and only if
F	...		field of complex numbers
\in	...		belongs to
poe	...		pair or pairs of opposite edges
$H(AB, CD)$...		A, B are harmonic conjugates w_o C, D
AB, CD	...		point of intersection of the straight lines AB and CD
$(P)_{oi}$...		secant through the point P to the poe A_0A_1, A_jA_k of a tetrahedron $T(A) = A_0A_1A_2A_3, i, j, k = 1, 2, 3$
$(P)'_{oi}$...		polar line of $(P)_{oi}$ w_o the tetrahedron $T(A)$
m.s.p.	...		mutually self polar tetrahedra
