Abstract xv

1 Introduction **1**

1.1 Introduction 1

1.2 Prerequisites 5

1.3 Literature Survey 12

1.3.1 On generalized E-convexity 12

1.3.2 On Fenchel-Lagrange duality 16

1.3.3 On fuzzy nonlinear programming problem 17

1.4 Important results of the thesis 19

2 **E-convexity and optimality condition for nonlinear programming problem** **27**

2.1 Introduction 28

Copyright IIT Kharagpur

2.2 New results using E-convex function 31
2.3 Constrained minimization problem 37
2.4 Conclusion 40

3 Generalized E-invexity and duality results for nonlinear programming problem 41
3.1 Prerequisites 42
3.2 New results for generalized differentiable E-invex functions 44
3.3 Constrained minimization problem 56
3.4 Duality results using generalized E-invexity 59
3.5 Conclusion 62

4 Second order generalized E-invexity and duality results for nonlinear programming problem 63
4.1 New results for second order generalized E-invex functions 64
4.2 Duality results using second order generalized E-invexity 68
4.3 Conclusion 71

5 Duality results for Lagrange dual, Fenchel dual, Fenchel-Lagrange dual using E-convexity 73
5.1 E-convex programming problem 75
5.2 Construction of duals for P_E 79
5.2.1 Lagrange dual 79
5.2.2 Fenchel dual. 80
5.2.3 Fenchel-Lagrange dual 81
5.3 Duality results using E-convexity 82
5.4 Conclusion 93

6 Second order duality results for Lagrange dual, Fenchel dual, Lagrange Fenchel dual with convexity and E−convexity 95
6.1 Prerequisites 96
6.1.1 Second order Lagrange dual (D^2_L). 97
6.1.2 Second order Fenchel dual (D^2_F). 98

Copyright IIT Kharagpur

6.1.3 Second order Fenchel-Lagrange dual (D_{FL^2}) 99
6.2 Duality results for (D_{L^2}), (D^2_F), (D_{FL^2}) using convexity. 101
6.3 Second order Lagrange, Fenchel, Fenchel-Lagrange dual using E−convexity. 113
6.4 Conclusion 116

7 Lagrange dual for fuzzy nonlinear programming problem 117
7.1 Introduction and literature survey 118
7.1.1 Dual of fuzzy linear programming problem as proposed by Bector and Chandra 124
7.2 Feasible region for (FNP) 126
7.3 Lagrange dual for (FNP) 133
7.4 Conclusion 140

8 First and second order Wolfe's dual for fuzzy nonlinear programming problem using convexity and E-invexity 141
8.1 Wolfe's duals for fuzzy nonlinear programming problem 142
8.1.1 Wolfe's first order dual for (FNP) 142
8.1.2 Wolfe's second order dual for (FNP). 144
8.2 Wolfe's First and second order duality for FNP using convexity 145
8.2.1 Wolfe's first order duality results for (FNP) 146
8.2.2 Wolfe's second order duality results for (FNP) 150
8.3 Wolfe's first and second order duality for FNP using E-invexity 155
8.3.1 Wolfe's first order duality result for (FNP) 155
8.3.2 Wolfe's second order duality result for (FNP) 156
8.4 Conclusion 158

9 Conclusions and Future Scope of Study 159
